## ACCESSIBILITY PLAN

The Equality Act (2010) is the legislation that protects our community from discrimination against age, sex, race, disability, religion or belief and sexual orientation.

According to the Equality Act (2010) a person has a disability if:

- He or she has a physical or mental impairment, and
- The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education's guidance on statutory policies for schools. The Plan must be reviewed minimum every three years and approved by the Governing Body. At The Downs, the review and approval process is delegated to the Risk & Regulatory Committee. The current Action Plan is appended to this document.

- The Accessibility Plan is structured to complement and support the School's Equality Opportunity and Disability Policy objectives.
- The Downs Preparatory School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act (2010) with regard to disability and to developing a culture of inclusion, support and awareness within the School.
- The Accessibility Plan shows how access is to be improved for disabled pupils within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable. The Plan contains relevant and timely actions to:-
  - Increase access to the curriculum for pupils with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils. It also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe;
  - Improve and maintain access to the physical environment of the School, adding specialist facilities as necessary – this covers improvements to the physical environment of the School and physical aids to access education within a reasonable timeframe;

- Improve the delivery of written information to pupils with disabilities to ensure they can access all aspects of the curriculum

## **Aims**

The Downs School aims to offer the highest quality of teaching and learning and support all pupils in the pursuit of academic and personal excellence. We have high expectations of all of our pupils, EYFS to Y8, and we strive to ensure that as far as possible, every pupil can take part in the whole School curriculum. We value the diversity of our School community and appreciate the contribution that pupils with special educational needs and/or disabilities (SEND) can bring to School life.

We strive to be a fully inclusive and welcoming School and have an Admissions Policy and criteria which seek to remove barriers to entry to our School for pupils with special needs and/or disabilities.

## **Context**

Our staff regularly review their teaching strategies to ensure that any potential barriers to learning and participation by SEND pupils are removed. We promote the importance of using language that does not offend amongst both our staff and our pupils and ensure that, wherever possible, positive examples of disability are portrayed in teaching materials.

We take a fully inclusive approach to our staff recruitment and aim to appoint the best person based on their skill set and qualifications and regardless of any disability he/she might have. We always consider the School's Equal Opportunities Policy for staff in our day-to-day management.

We offer accessible written information to pupils with disabilities such as sentence starters and written instructions in class for pupils with literacy difficulties and we support different ways of documenting information depending on the pupil's needs for example, visual representation of ideas, scribing for pupils with co-ordination difficulties. We apply and support access arrangements from Year 4, where pupils have had a professional assessment and encourage that these arrangements are adhered to in the classrooms to ensure it becomes the pupil's normal way of working.

## **Physical Access**

The Downs Preparatory School is a single campus set on a level site. The buildings reflect the development of the School over a century and are within easy reach by foot, although access to some parts does involve stairways, steps and slopes. Buildings vary from single storey to three floors, some of which contain several staircases and some narrow corridors. There are no lifts.

We review and take steps to improve the physical environment of the School in order to increase the extent to which disabled pupils are able to take advantage of education and associated services offered by the School.

It is normal practice for pupils to move within and around the buildings and to be taught in classrooms and in specialist rooms, with appropriate subject resources. The School has an active monitoring policy and will do its best to make adjustments to take account of an individual pupil's needs, within the constraints imposed by its buildings on a scattered site. We are progressively improving facilities for disabled access and wheel chair users as our buildings are upgraded. Most recently, the development of the School's swimming pool has included step-free access to the pool via a DDA-compliant sloped pathway, in addition to

disabled changing, shower & toilet facilities.

Where it is practicable to make reasonable adjustments to enable a prospective pupil to take up a place at the School and to satisfy the current admission criteria, the School is committed to providing those reasonable adjustments.

In order to meet the needs of disabled pupils, the School requires full information. The School will ask all applicants for admission to disclose whether they have received any learning support, have had an educational psychologist's report, are in the process of applying for, or have an EHCP, or have any disability or other condition of which the School should be aware.

In assessing the pupil or prospective pupil, the School may need to take advice and require assessments as appropriate. The School will be sensitive to any issues of confidentiality.

### **Monitoring & Evaluation**

At The Downs Preparatory School, the Leadership Team is responsible for:

- The annual review of the School's policies, procedures and facilities as they are likely to affect pupils and prospective pupils who are disabled. This annual review is shared with Governors with overall responsibility for their review and approval.
- Making recommendations with a view to improving the accessibility of its education in many aspects to pupils or prospective pupils with disabilities by means of reasonable adjustments and by planning for the future
- Preparing the School's Accessibility Plan
- To review such plans and policies as necessary and at least on an annual basis

The Learning Hub (LH) Team (previously called Learning Support) are continually auditing our provision for pupils with special educational needs and/or disabilities.

The following related matters are regularly monitored:

Admissions  
Attainment  
Attendance  
Education  
Extra-curricular activities  
Physical school environment  
Selection and recruitment of staff  
Sporting education and activities  
Staff training  
Welfare
